PROFESSIONAL SUMMARY

Field Technician with 4+ years of hands-on experience in network operations, fault management, and telecommunications systems (FTTH, GPON, LTE, MPLS, SDH, and IP networks). Proven ability to independently manage network faults, perform preventive maintenance, and support live network environments, maintaining 98%+ uptime. Experienced in NOC coordination, fault escalation, circuit provisioning, and technical reporting, with a track record of reducing downtime and improving service delivery. Reliable and adaptable, with the ability to operate effectively in demanding field environments and meet SLA targets.

TECHNICAL SKILLS

Networking & Systems

- LAN/WAN, TCP/IP, Subletting
- Routing & Switching (Cisco)
- MPLS, SDH, IP Networking
- Network Configuration, Integration & Testing
- Network Monitoring & Incident Management

Telecommunications

- GPON, FTTH, LTE, ADSL
- Fibre Optic Splicing, OTDR Testing & Fault Localization
- Circuit Provisioning, Activation & Integration
- VoIP, CTI Systems

Tools & Platforms

- PRTG, SolarWinds (Network Monitoring)
- Fault Management & Ticketing Systems
- Microsoft Excel (Reporting), Word
- Windows OS, Linux (Basic Administration)

CORE SKILLS

- Troubleshooting & Fault Resolution
 - Preventive & Corrective Maintenance
 - Incident & Escalation Management
 - NOC Communication & Coordination
 - Technical Reporting (Daily/Weekly/Monthly)
 - SLA & KPI Tracking
 - Customer Support & Field Service
 - Time Management & Task Prioritization
 - Analytical Problem Solving
 - Team Collaboration
-

WORK EXPERIENCE

Telecommunications Technician – TelOne

Jan 2023 – Present

- Prepare daily, weekly, and monthly reports on network faults, maintenance, and performance.
 - Monitor network systems and provide real-time updates to NOC and supervisors.
 - Perform preventive and corrective maintenance, maintaining 98%+ network availability.
 - Troubleshoot FTTH, GPON, MPLS, and IP network faults, reducing downtime by 30%.
 - Configure, activate, and integrate network equipment and customer circuits.
 - Conduct network testing and validation to ensure service functionality.
 - Maintain continuous communication with NOC throughout the fault lifecycle.
 - Escalate unresolved faults to engineers within SLA timelines.
 - Perform network performance and trend analysis to prevent outages.
 - Resolve 10+ fault tickets daily, improving MTTR.
 - Provide on-site customer support, reducing repeat faults by 20%.
 - Operate independently on assigned sites with minimal supervision.
-

Assistant Telecommunications Technician – TelOne

Jan 2022 – Dec 2022

- Supported installation and maintenance of FTTH, GPON, and ADSL networks.
 - Performed preventive maintenance, reducing system faults by 20%.
 - Diagnosed and resolved VoIP, CTI, and data network issues.
 - Assisted with circuit installation, configuration, and activation.
 - Maintained technical reports and documentation.
 - Handled multiple service requests, improving response times.
 - Collaborated with team members to improve service delivery.
 - Assisted in training junior technicians, reducing errors by 15%.
-

PROJECT EXPERIENCE

- **FTTH Network Deployment**
Participated in installation, splicing, testing, and activation of fibre networks, improving connectivity and service coverage.
- **Network Fault Reduction Initiative**
Analysed recurring faults and implemented corrective actions, contributing to a 30% reduction in network downtime.
- **Quick Win Projects**
Quick win projects that boost the station revenue by **10%**

EDUCATION

Bachelor of Commerce in Information Systems (In Progress)
Midlands State University | 2025 – 2027

Diploma in Integrated Telecommunications
TelOne Centre for Learning | 2019 – 2022

- Distinction
- Second Best Student Award
- Best Hardware Project Winner

KEY ACHIEVEMENTS

- Reduced network downtime by **30%**
- Maintained **98%+ network uptime**
- Improved MTTR and fault response efficiency
- Reduced repeat customer faults by **20%**

ADDITIONAL INFORMATION

- Available for field deployments and emergency network support
- Able to work shifts and under pressure
- Valid driver's license (add if applicable)
